Corum8 Blockchain Academy

Gamified EdTech Portal
academy.corum8.com
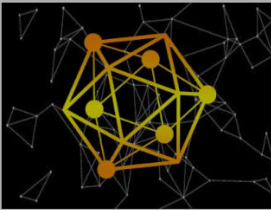

After getting success in blockchain development service sector, Corum8 decided to generate more resources to fulfil the current demand of global industries. The team aims to make students ready for the industry by its EdTech portal where any approved professor can put his course and student can avail it with gamified learning. The course is followed by an online assessment for self evaluation of students as well as for Corum8 HR if the student have opted for it.

Corum8 Information Centres

Forum
forum.corum8.com

Lifetime Access to Forum for Troubleshoot

To support students in their learning journey, we have created a forum where students can discuss blockchain applications, code and cryptocurrencies related doubts. Our expert team will support them on forum wherever needed. Similar questions on forum will ease out process for other students to troubleshoot their problems.

News
news.corum8.com
